

Marcy Davidovics, LCSW

Psychotherapist in Manhattan (Upper West Side) and
Queens (Flushing)

917-586-5360

I am interested and committed to seeing you grow and develop as you explore your patterns, scripts, and inner workings to develop **a more integrated YOU**. Whether you are an individual, couple, or family system, that wants to be the best you can be and free yourself from your emotional and social blockage(s), I am able to work with you. I have worked with many different ages and presenting concerns with positive outcomes.

As the Social Work Director of a large yeshiva, supervisor of many MSW students, and a private practice clinician, I have had the opportunity to treat many different areas of mental health including anxiety, depression, addictions and others. I have had experience treating children, teenagers, young adults, couples, and families.

I also have many years of experience in the observant Jewish community and have resources and cultural competence unique to this specific population. This gives me another layer of sensitivity that makes the therapeutic process that much more successful for the committed client.

Issues treated include:

-
- relationship issues
- coping skills
- self esteem
- anxiety/fears
- parenting
- loss/grief

- addictions

MARCY DAVIDOVICS, LCSW

YCQ, 147-37 70th Road, Flushing, NY 11367

mdavidovics@ycq.us, 917-586-5360

PROFESSIONAL SUMMARY: I have 13 years of experience as the Social Work Director at a large Jewish school in Queens. In addition, I have created and run an internship program for MSW students where I have supervised and taught 48 students in their field work site. In my private practice, I work with children, adolescents, adults, and family systems (including couples and marriage).
